

The New York Department of Health is requiring school districts to conduct COVID19 testing. Each week school districts need to test a different group of students and employees. This must be 20% of employees and students who come to the campus, either full or part time. School districts that are unable to meet the 20% threshold may be required by the state to go fully remote.

Tests are being provided at no charge. We hope that families will allow their children to participate, but it is not mandatory. Parents need to formally consent to student testing. We ask all families to complete this form for each of their children attending school or through the hybrid learning model by

_____.

Health officials describe these tests as less invasive, shallow nasal tests. Testing will be done at the school by trained medical personnel. The results of these test will be shared with parents. Parents also have the option to have their child tested off-site and provide the results to the school nurse-teacher.

1. Please enter your child's information.

First name

Last name

Student ID

2. What is your child's home school.
3. What is your child's grade level.
4. Are you providing consent for your child to be tested for COVID 19 test at school?
YES, I consent to have my child tested for COVID 19 at school.
NO, I do not consent to have my child tested for COVID 19 at school.

5. Please provide you contact information.
