### **Consent Form for COVID-19 Testing in Schools**

The New York Department of Health is requiring school districts to conduct COVID19 testing. Each week school districts need to test a different group of students and employees. This must be 20% of employees and students who come to the campus, either full or part time. School districts that are unable to meet the 20% threshold may be required by the state to go fully remote.

Tests are being provided at no charge. We hope that families will allow their children to participate, but it is not mandatory. Parents need to formally consent to student testing. We ask all families to complete this form for each of their children attending school or through the hybrid learning model by **Monday, December 14, 2020.**

Health officials describe these tests as less invasive, shallow nasal tests. Testing will be done at the school by trained medical personnel. The results of these test will be shared with parents. Parents also have the option to have their child tested off-site and provide the results to the school nurse-teacher.

If you have any questions about the testing process, please contact either your school nurse or the Ulster County Health Department: (845) 443-8888.
